---

## PROFESSIONAL SUMMARY

Software Engineering undergraduate with **hands-on experience in live full-stack development and real-world internship exposure**. Strong knowledge of **RESTful APIs, cloud platforms, caching, security, and developer-focused systems**. Passionate about **tech evangelism, developer relations, API platforms, and community engagement**. Experienced in documentation, testing, onboarding users, and presenting technical solutions clearly.

---

## EDUCATION

### BSc (Hons) Computer Science

Kingston University (UK), Sri Lanka

*Currently Reading*

### HND in Software Engineering

Pearson (ESOFT Metro Campus), Sri Lanka

*Merit*

---

## PROFESSIONAL EXPERIENCE

### Software Engineering Intern (Unpaid)

Finovation Tech — Sri Lanka

*Currently Working | 4 Months*

- Assisted in **developing and maintaining web application features**
  - Supported **API integration and backend functionality**
  - Performed **application testing, bug fixing, and validation**
  - Helped prepare **technical documentation and internal reports**
  - Collaborated with developers in a **fast-paced, cross-functional environment**
  - Gained exposure to **real-world development workflows and deployment practices**
-

## TECHNICAL SKILLS

### Backend & APIs:

RESTful API Development, Laravel 11, Authentication, Middleware

### Frontend:

Next.js 14, TypeScript, Tailwind CSS, Responsive UI

### Databases & Caching:

MySQL, Redis

### Cloud & DevOps:

Vercel, Railway, Docker(Basic), Cloudflare

### Tools:

Git, GitHub, Postman, Cloudinary, WordPress (<https://finovationtech.com>)

---

## PROJECT EXPERIENCE

### GetOffer – Smart Deals & Offers Platform (LIVE)

<https://get-offer.live>

- Developed a **production-ready full-stack platform** for offers and promotions
  - Designed **RESTful APIs** for brands, categories, and offers
  - Built **admin governance system** using FilamentPHP
  - Implemented **role-based access control and secure authentication**
  - Integrated **Redis caching** for performance optimization
  - Deployed frontend on **Vercel** and backend on **Railway**
  - Applied **Cloudflare security and performance optimizations**
  - Dockerized backend services
- 

### AI-Powered Smart Doctor Recommendation & Appointment Booking System

(Working/Ongoing)

- Designed APIs for doctor onboarding and appointment booking
  - Implemented AI-based recommendation logic
  - Conducted system testing and validation
  - Prepared technical documentation and UML diagrams
- 

## RELEVANT STRENGTHS

- Developer onboarding & API usage support
  - Technical documentation & reporting
  - Application testing & quality assurance
  - Presentation decks & technical demos
  - Clear communication of technical concepts
- 

## CAREER INTERESTS

Tech Evangelism, Developer Relations, Telco APIs, Platform Ecosystems, Product Innovation, Community Building

---

## AVAILABILITY

Available for Internship | Open to workshops, hackathons, and university outreach programs
